DETAILED ACTION

Election/Restrictions

1. Claims 10-11 and 14-18 are allowable. The restriction requirement between species, as set forth in the Office action mailed on 11/27/2006, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 12-13, are no longer withdrawn from consideration because the claims require all the limitations of an allowable claim. However, claims 1-9 and 19-41, directed to non-elected species are withdrawn from consideration because they do not all require all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

2. This application is in condition for allowance except for the presence of claims 1-9 and 19-41 are directed to an invention non-elected with traverse in the reply filed on

02/20/2007. Applicant is advised to cancel the noted claims or take other appropriate action (37 CFR 1.144). Failure to take action during this period will be treated as authorization to cancel the noted claims by Examiner's Amendment and pass the case to issue. Extensions of time under 37 CFR 1.136(a) will not be permitted since this application will be passed to issue.

The prosecution of this case is closed except for consideration of the above matter.

Allowable Subject Matter

3. Claims 10-18 are allowed.
4. The following is a statement of reasons for the indication of allowable subject matter:

Regarding claim 10, the prior art of record neither shows nor suggests a diffusion sheet comprising the plurality of unit lens portions have at least two types of unit lens portions each having a different angle between each side segment and a light-incident-side long bottom segment of the isosceles trapezoidal section.

Conclusion

5. This application is in condition for allowance except for the following formal matters:

This application is in condition for allowance except for the presence of claims 1-9 and 19-41 are directed to an invention non-elected with traverse in the reply filed on

02/20/2007. Applicant is advised to cancel the noted claims or take other appropriate action (37 CFR 1.144).

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
